

# Hotel «TEC» and SPA Conference system

Security Systems | Stories of success  
[www.boschsecurity.com.ua](http://www.boschsecurity.com.ua)

## Installed equipment

Conference system CCS800, sound system Plena, loudspeakers.

## Branch

Hotels

## Location

### Hotel and SPA «TEC» Evpatoria, Crimea, Ukraine

Resort - health "TES-Hotel" in Evpatoria is the largest SPA-complex in the North - East coast of Crimea. It was built and opened in 2009 and represent a model of style, harmony and modern architectural decisions of comfort and spa service.

## Goal

Primary hotel requires high-level equipment. Conference - Service is one more way to receive permanent income, as also providing a homelike, comfortable feeling in a spa give a guaranty of satisfaction and improvement of hotel guests. Systems, which were proposed by Bosch, meet these requirements and ensure the quality of decisions.

## Decision

Bosch conference system CCS 800 Ultro is used for small (up to 150 participants) conference rooms. It is very easy to install and use this universal and economic system CCS 800 Ultro. The system provides full control over discussion without operator intervention. Participants are easily attending the conference by loudspeakers, which are built-in controls, or take part as speakers using microphones.

The system has a unique opportunity to track (write down) the conference in MP3 format, which allows a secure digital card (SD), and performs recording session for the next reliable archiving, reproduction and general management meeting. Elegant and stylish controllers are suitable for all rooms.

Dual headphone jack and microphone on a flexible neck allows you to use two remote participants. It is provides maximum flexibility and cost savings.

## Result.

The systems installation was finished at the end of July 2009.

## Installed by:

### Smart Tec Company

This company was founded by the group of professionals in 2007 and positioned itself as a company - system integrator of such systems as:

- Sound systems;
